## Wednesday, June 18th

8:00 – 9:00 am	Breakfast
9:00 – 9:45 am	<b>Hexagon’s Geosystem Division General Session</b> <i>BleauLive Theater</i>
10:00 – 10:45 am With guest speaker <b>Mairav Mintz</b> <i>Capri 10</i>	<b>[Projectmates Keynote] 8 Warning Signs Your Project is at Risk</b> <p>In the construction industry, project managers are taught to be proactive, anticipate risks, and plan accordingly. But the truth is when managing large projects, it is sometimes hard to see the warning signs that projects are struggling. This session will help you identify early signs of project distress with an opportunity to rectify the situation before the project feels the ramifications. Areas include project governance, schedule management, cost management, and more.</p>
11:30 am – 12:15 pm <i>Capri 10</i>	<b>[Projectmates Session] Mastering Construction Risks—Leverage Projectmates to Ensure Predictable Project Delivery</b> <p>As Projectmates evolves, so does your ability to stay ahead of construction risk. With built-in tools to identify, track, and reduce risks across your projects, you gain greater control and visibility. KPI dashboards surface key metrics like budget health, schedule performance, and team collaboration—helping you spot issues before they escalate. This session will show you how to leverage Projectmates to manage risk more strategically and effectively.</p>

## Wednesday, June 18th (cont.)

12:15 – 2:00 pm	<b>The Zone / Lunch</b>	<i>The Zone</i>
2:00 – 2:45 pm <i>Capri 10</i>	<p><b>[Projectmates Session] Industry Insights Roundtables</b></p> <p>Join intimate, industry-focused breakout sessions designed to spark conversation and strengthen connections. In these interactive small groups, public and private Owners will share experiences, challenges, and best practices. It's a chance to learn from peers and walk away with fresh ideas you can put into action.</p>	
3:00 – 3:45 pm <i>Capri 10</i>	<p><b>[Projectmates Session] Flex with Projectmates Custom Apps</b></p> <p>Projectmates custom apps let you tailor forms and workflows to match your construction program's unique processes—no coding required. From permit requests and inspection reports to new store setup and vendor scorecards, custom apps streamline approvals, support file attachments, and can be reported on. This session will showcase real-world examples and walk you through just how easy it is to build and deploy your own custom apps.</p>	
4:00 – 4:45 pm <i>Capri 10</i>	<p><b>[Projectmates Session] Smarter Bidding with Projectmates</b></p> <p>When you're juggling high-volume construction programs, inconsistent bids and manual processes create chaos. Inconsistent submissions, missed deadlines, and time-consuming spreadsheet cleanups can derail progress. Projectmates brings clarity with a fully digital, standardized bidding process built to scale. This technical session dives into the platform's bid management tools, covering key features for both public and private sector bidding.</p>	
5:00 – 5:30 pm <i>Capri 10</i>	<p><b>[Projectmates Session] Mastering Construction Project Closeout: Best Practices for a Smooth Transition</b></p> <p>The closeout phase is critical to project success, but it's often rushed or overlooked. It's the final opportunity to ensure all parties are satisfied and every contractual obligation is met. This session will walk through the key components of a smooth closeout, including punch list management, documentation collection, contract wrap-up, and handoff of manuals, warranties, and assets. Learn proven strategies to close out projects efficiently, avoid disputes, and protect your team's reputation.</p>
